Immunizations

Mercy Projects has put a policy in place: PLEASE TAKE NOTE!!!

We require that each individual who goes on any trip through Mercy Projects has an updated tetanus shot.

Traveling internationally has risks involved and one such risk is acquiring tetanus (lockjaw), a bacteria most commonly transmitted by puncture wounds. Physicians recommend that every individual get a tetanus shot and ensuing boosters every 10 years.

I hereby release Mercy Projects, its directors, officers, employees, and agents from all liability. By signing this document I agree that I have received my tetanus shot within the last ten years covering me for the time period that I am on my trip with Mercy Projects. Therefore I will not make any claims against Mercy Projects.

FOR TRIP: _____

Signature of Participant: _____ Date: _____

Print Name: _____ Date: _____

**Signature of Parent/Legal Guardian if participant is under 18
years of age**

Signature _____ Date _____
